Weekly 8 report
Yicheng sun

Website address: http://web-wnv.cvjzv83vmx.us-west-2.elasticbeanstalk.com/index.html

In this week I learned Django auth library and start build my login system. my login system has 5 parts, they are register, login, account ,upload and logout. This week I finished three parts they are register, login and log out, just like the image show below. now you could try to do a register and become a member of PhotoLocation!

In the next week I will build my another parts of my login system, so that every one could build their own account on my website, by using their account, they could upload pictures from their computer.
